

Original ADD | Entirely lost GNSS inputs versus retained heading

● 10 s; all nine placements ■ 20 s; all nine placements ▲ 30 s; all nine placements

All 495 original runs completed: D61 27 × 11; D62 18 × 11. All 45 registered conditions shown; no best-placement selection.
These are original protocol providers and whole-window metrics, not the later corrected 135-case diagnostic or an independent field experiment.
